Profile

Motivated and detail-oriented student with a strong interest in technology and problem-solving. Eager to learn new skills and contribute effectively in a dynamic environment.

Education

Ballari Institution of Technology and Management (BITM) **CGPA: 7.5**
B.E. – Computer Science Engineering with Specialization in Data Science (CSE-DS)

Technical Skills

- **Programming Languages:** C, Java (basic)
- **Web Technologies:** HTML, CSS (basic)
- **Tools & Platforms:** Git, VS Code
- **Other:** MS Office

Projects

Contact Management System

- Developed a robust command-line application in C to successfully store, view, search, update, and delete user contact details.
- Implemented file handling techniques to ensure persistent data storage, saving contact records reliably across different sessions.
- Utilized pointers and structured data types to optimize memory allocation and streamline data retrieval operations.

Library Books Management System

- Built a comprehensive management system to track book inventory, automate issue and return logs, and manage user borrowing records.
- Designed a user-friendly interface and implemented search functionalities to quickly locate books by author, title, or ID.
- Integrated core data validation to prevent duplicate entries and maintain an accurate, real-time inventory count.

Core Competencies

- Problem Solving
- Teamwork
- Communication
- Time Management
- Quick Learner

Languages

- English, Kannada, Hindi
